Education

FAST UNIVERSITY

BS Data Science. GPA: 2.10

Relevant Coursework: Data Analysis and NLP

Islamabad, Pakistan
September 2023 – Present

THE SCIENCE SCHOOL

General Certificate of Education – Advanced Level (GCE A-Level)

Grades: B, B, C

Islamabad, Pakistan
June 2023

Projects & Technical Experience

CINEMAGO WEB APP

Frontend & Backend Developer

February – May 2025

- Designed and deployed a movie discovery website using HTML, CSS, JavaScript, Flask, and Python.
- Implemented search, user login, and recommendation algorithm.

NETWORK EMULATOR IN C++

Lead Programmer

May 2025

- Engineered a simulation tool to model computer network behaviour, including packet flow and latency.
- Devised socket-like logic and modular architecture to emulate multiple nodes.

GAMEBOY ON C++

Game Developer

December 2024

- Created a suite of classic games (Snake, Wordle, Hangman) using object-oriented principles.
- Designed responsive UI, game logic, score tracking, and level progression system.

DATA CLEANING & NLP PROJECTS

Python Developer

December 2024

- Performed data cleaning, preprocessing and basic machine learning model development on medium-scale datasets.
- Applied advanced Natural Language Processing (NLP) techniques, including tokenisation, stemming, and sentiment analysis on multilingual data, particularly in Urdu.
- Worked on language-specific text preprocessing challenges such as script variation and stopword handling.
- Applied advanced statistical techniques (e.g., hypothesis testing, regression analysis, distributions) and implemented them programmatically in Python.
- Gained foundational experience with OpenCV for basic image processing tasks.

PRESENTATION SKILLS & COMMUNICATION

Academic Presenter

Ongoing

- Delivered many formal presentations across my degree programme on technical and academic topics.
- Topics included data visualisation, C++ concepts, community outreach, and web development.
- Recognised for clear articulation, engaging slide design, and strong audience connection.

Technical Skills

Programming Languages: Python, C++, LaTeX.

Operating Systems: Windows, and Linux.

Version Control & Hosting: Git, GitHub – github.com/ib-hussain

Interests

Language: English (Fluent), Urdu (Native), Italian (Basic).

Interests: Graphic Design, Video Editing, Web Development, UI/UX Design, Game Development.
